Real Projects Experience

DATABAB

July 2025

DATABAB is a modern data analytics platform that transforms raw data into meaningful insights through interactive dashboards, visualizations, and business intelligence solutions, helping organizations make smarter, data-driven decisions.

Multi-language by next-intl - Full Authentication - Data analysis & GIS courses with filters

[Visit the website](#)

Jobtevia

July 2025

this is a job platform where employers can add free (Remote - Hybrid - On-site) jobs and receive applications and manage them and job seekers can search for jobs with many filters choices...

Full Authentication - Search for the job for job seekers - Manage the jobs - Add jobs - Multi-language by next-intl

[Visit the website](#)

amro97 Academy

February 2025

I made this academy to help people learn and apply from coding youtube projects and give them the full roadmap and guidance to become developers.

Projects lists and youtube videos - Add projects to favourite page - Multi-language by next-intl - Full Authentication - Search bar to search for videos

Web Dev Service

January 2025

I made this freelance website to let people request me building websites for them as a freelancer.

Dark mode - Multi-language by next-intl

[Visit the website](#)

File storage app

January 2025

This is a great project where you can upload any things (File - Image - Video - Word - PDF and others...), you can pick your favourites, move items to trash or delete them

Fullstack - Full Authentication - Search Bar to search for files

[Visit the website](#)

Todo App

January 2025

I made this app for real use by myself to store different things that I want to do while I'm developing and i added others features like the tasklist in the sidebar and others and I think how to code them by myself

Sidebar to select tasklists - Dark mode – Fullstack - Full Authentication

[Visit the website](#)

Notes App

March 2025

I made this app for real use by myself and to be like iphone notes app where I can add notes which i want to see them while using the browser, and there are features like iphone notes app such as pin notes, lock notes and move note between folders, and there are folders for each group of notes.

features like iphone note app - lock note - pin note - move note between folders – Fullstack - Full Authentication

[Visit the website](#)

Copy to clipboard

March 2025

I made this app for real use by myself where I can add some texts that I need to copy them many times while developing a project or while applying for jobs like the answer to repeated questions like what is expectation the to salary and others

Fullstack - Full Authentication
